

LAUNDRY ROOM RULES

1. STUDENTENWOHNEN.AT does not assume any liability for articles of clothing, valuables, or other private possessions.
2. Insert your laundry card into the reading device in the laundry room (in the Heim-Vorteil Laaer-Berg-Straße dormitory, please hold the card in front of the display on the reading device). With this, your payer ID is registered and in the billing system of the dormitory management, one wash cycle is booked. Use the +/- buttons to select the number of the washing machine you want to use and fill the washing machine such that it is well-filled **without cramming the machine with laundry. If your hand still fits on top of your laundry easily, the machine is perfectly loaded.**
3. Please make sure all pockets of your clothes are emptied prior to washing (coins, paper clips, tissues, etc.).
4. To increase the washing machines' durability, dose washing detergent and fabric softener economically and use the correct compartments.
5. One wash cycle costs € 1.50 and one dryer cycle costs € 0.00.
6. The laundry must be removed from the machine immediately after completing the wash or dryer cycle so that the machine is free to be used by other dormitory residents.
7. **The dryer may only be filled halfway always.** Your laundry must move around loosely in the dryer drum, this way your laundry won't wrinkle. Furthermore, there is a danger of dryer overheating if too much laundry is crammed into the machine.
8. Please note that the dryer will stop operating in case of dryer overheating due to improper usage. If this causes damage to the machine, we must charge the costs incurred to the person causing the damage.
9. Please clean the lint (fluff) filters of the dryer AFTER EACH use. In your own interest, also check those filters BEFORE starting a dryer cycle.

10. Unlawfully taking away other people's clothing articles is THEFT and will be reported to the authorities without exception. In further consequence, this leads to termination of the usage relationship.
11. After using the laundry room, it must be left clean and tidy.
